

"Paper or plastic?"

OK, paper can be recycled. Plastic, too, but no matter how you feel about paper or plastic, reusable is better. Reusable bags don't get into landfills. Reusable bags save energy and reduce pollution. Learn as much as you can about reducing the use of [plastic bags](#). Then have some fun, be creative and make a piece of art that does more than take up space on your refrigerator. Think about printing up some paper and plastic bag [fact sheets](#) and putting them in the bags. Make one or make a bunch and give them away to neighbors and friends. You can also buy bags to decorate [here](#) or at your local craft store.
